

ARE YOU GIVING YOUR GUESTS THE BEST TASTING COFFEE?

Many hotels and guesthouses are now placing Nespresso®* type coffee machines in their guest rooms. A great idea but how are you cleaning them?

Old coffee residue and bacteria inside the nozzle of the machine can destroy that 'fresh coffee' taste. Independent tests show that bacteria levels inside coffee pod machines can be as high as 400 times over the recommended health and safety levels.

For that reason, Caffenu® invented a cleaning pod to clean the brewing chamber of capsule coffee machines.

CLEANING HAS NEVER BEEN EASIER

Use the Caffenu® cleaning capsule once a month and descale once every six months with our Caffenu® Eco Descaler.

Your guests will thank you for it!

 [SEE HOW THE CAPSULE WORKS](#)

Insert it just like a coffee capsule: run, rinse, ready!
